Intense Heat at St. Louis.

ST LOUIS, July 14.—This has been the hottest day of the season, mercury ranging between 8 and 4 o'clock from 90° to 100° in the shade. Nearly thirty cases of sunstroke were reported at the city dispensary and hospitals during the day, and fully as many more have probably occurred of which the authorities have no record. Nearly every physician can report from one to three cases in his private practice. Sixteen deaths have occurred to-day from this cause alone, and 22 burial permits have been granted in three days which include only two of the fatal ones of to-day. It is not unusual to have the same degree of heat here, but so many cases of sunstroke and so many deaths from that cause in the same time were never known before.

THE POTTER INVESTIGATION.

WASHINGTON, July 13 1878

The Potter investigating committee to-day resumed examination of Senator Kellogg. The senator said he met the visiting statesmen on several occasions in New Orleans. He had no knowledge that any letter or telegram had been sent from Columbus, Ohio by Gov Hayes to any member or members of the returning board during progress of the count. Does not recollect that he ever conferred with E L Weber regarding his brother's banding firm to his protest. He wrote Mrs Jenks but two letters both in reference to requests of hers that he (Kellogg) should use his good offices toward securing either her husband or her brother a position in New Orleans custom house—having, however incidentally inquired in one of the letters if she knew of anything definite regarding the much talked of letter

Question—Did you refer to the Sherman letter?

Answer—Yes sir, but I cannot now say whether or not I mentioned the name of Sherman

The testimony of Mr Jenks to effect that he and his wife had corresponded with Kellogg for several years the witness pronounced a mistake. Their correspondence had all occurred in 77. In reply to Chairman Potter, Kellogg said Mrs Jenks did not come to Washington at his request nor in his interest. He did not know the object of her visit but recollects her remark that she hoped Mr Packard would receive the collectorship but could not say she was here to assist in affecting that result. He thought Mrs Jenks mistaken in her statement that she had frequent interviews with him regarding the count during its progress. If any such interviews had occurred he thought he should have remembered it, and he has no recollection whatever at this time of any such conversation with her. James E Anderson was not considered by him as a trustworthy Republican. He (Kellogg) did not recollect whether or not D A Weber was appointed by him in the position he held in New Orleans. He knew nothing of the standing of Mrs Jenks always considered her husband an honorable gentleman and a good Republican.

The chairman then questioned witness as to whether or not he had any knowledge as governor of Louisiana that there had been no protest made from the parishes of East and West Feliciana. Witness stated in reply that the record would show, whereupon Potter repeated his question and requested a direct reply which the witness refused to give, saying "I know nothing about it but if you will give me five minutes I can find it in the record"

Mr Potter—We can refer to the record ourselves

General Butler interrogated Senator Kellogg, and then said by way of question "I understand the state of facts to be that all the members of the visiting committee but one had federal offices given or tendered to them and that one was largely interested in a whisky case which was settled. All the returning board and all the supervisors except one, Weber (who was killed) and Captain Jenks, Mrs. Jenks and her sister or mother have been rewarded under the civil service order of the administration for aiding in the election or other matters." Hiscock said the question was categorical and must be answered "Yes" or "No." Gen Butler then modified the question as follows "Have any of them been appointed to federal offices so far as you know?" Hiscock replied to the question on the ground that a fact must be proved by affirmative not by negative testimony. Butler made his question and Senator Kellogg answered it by showing that according to his knowledge some of the commission had been appointed to federal offices, and also that some of the supervisors whom he named had also been appointed to places

Witness, in reply to further questions regarding the existence of intimidation, stated that he had heard from various sources of Democratic intimidation in the parishes of East and West Feliciana but had no personal knowledge of the same. He could not say from personal knowledge whether the protest of James E Anderson was before the returning board or not. Kellogg in reply to Potter's inquiries, stated that he had no knowledge of any applications for federal troops having been made by election officers in the parishes of East or West Feliciana on the day of election

Witness, answering a question said Gov Packard visited East Feliciana shortly before election and told witness that the state would probably be lost to the Republicans through intimidation. It was reported that many negroes with banners and flags went to the polls enthusiastically [illegible] the Democratic ticket there. Witness [illegible] this. It may have been a fact that Republicans stood around the polls and when invited to vote refused because they had no printed tickets. A Democrat was the only man who said to the Democrats that if they had concentrated their groups there [illegible] would be thrown out. A person protested according to the fact and although he now denies it, yet he nevertheless did make a protest on this denial was probably made for a consideration. Witness explained at length the objects which the intimidators hoped to gain and said they were determined to overcome the negro majority as it had been overcome in other states. They endeavored to conciliate, in some cases but the intimidation was usually of the shotgun kind

Hiscock said Butler's remark characterized the whole purpose of the inquiry

The chair decided that it was proper to show that the one only qualification for office of these men was that they had been fraudulently connected with elections. Witness said he believed all were appointed because of their abilities and integrity except James E. Anderson. He believed there were more efficient, active and competent ... sister [illegible] that campaign [illegible] [illegible] July [illegible] [illegible] at Atlantic City N J

WASHINGTON CITY

The Twiggs Swords.

CHICAGO July 13—The *Journal's* Washington special says: A lady living in England has made application for three valuable swords which were formerly the property of Gen Twiggs but which were captured by Gen Butler when he entered New Orleans during the war. These swords were sent to President Lincoln by Gen Butler and deposited by his successor (Johnson) in the vaults of the treasury department for safe keeping. They are valued at $55 000. One of them was presented to Gen Twiggs by Congress for bravery during the Mexican war. The scabbard is of pure gold and the sword hilt is of solid gold, brilliantly set with diamonds. When Gen Twiggs ran away from New Orleans at the approach of union troops he left these swords behind but sent a letter to a young lady friend saying that he had decided to give them to her and for her to obtain them. Soon afterwards Gen Twiggs died and the lady who now lives in England claims that the swords are her property and has made formal application to the secretary of the treasury for them. The request and claim are now being considered

The More Murder Trials.

SAN BUENAVENTURA July 13—This forenoon the trial of Sprague was proceeded with, Dr Dalmont coroner, being first called upon to prove cause of death. The Chinese cook was re-called and severely cross examined, evidently not so much to break him down as for an ulterior purpose. The trial progresses very slowly, legal contest being keen and close. The Chinese cook testified to-day for the first time, that on the night of the murder he saw five masked men. C A Starkey son in law of deceased, was called and proved a personal quarrel between the prisoner and deceased a few weeks before the murder. On cross examination he admitted that a collision occurred on land claimed by Sprague and also that on that occasion the examining magistrate refused to hold Sprague for trial. After two hours testimony direct and cross, the court ordered it stopped stating that at the proper time he should instruct the jury to disregard the whole of it

Austin Brown who lived within half a mile of the scene of murder was next called. Had a conversation with Sprague some weeks before the murder. He said More ought to be killed and would be and that a man had been detailed to kill him. He said in another conversation three days before the murder that Sprague said he had just come from Ventura where he had talked with Hines who said the matter must be settled in some other way than by law. Sprague said "More threatens to take our water and turn his sheep loose on us, and I have come to see you about killing him. There is a party organized to do it." Long before this Sprague told me More ought to be killed. He said the party organized to do it now were John Curlin Jesse Jones, H Cook, Julu Swanson and Churchill, and he wanted me to join. I asked how it would be done and he replied that it was all planned and fixed, that they had a turpentine ball to fire the barn and bring More out of the house when they would shoot him

He said they would be disguised with barley sacks over their heads so that no one would know them and they had a place of rendezvous where they would meet at 10 o'clock at night. The signal was a low whistle which would be replied to and some one would come to me. I told him my wife could not stay alone at night and therefore refused to go. If I was out at night she would mistrust something [illegible] Brown's direct examination

This afternoon Austin Brown's cross examination was continued at great length. He repeated what he said in his direct examination as to the conversation between Sprague and Hinds. At the conclusion of Brown's testimony an attempt was made to introduce the deposition of N Hickerson deceased. This was resisted by the defence on five or six grounds. Finally the prosecution conceded that Hickerson's ante mortem affidavit was not admissible. Counsel for defence then attacked the portion of Hickerson's testimony actually given before the committing magistrate on the ground that the defence had no opportunity to impeach him as to the truth of his deposition had never been cross examined and cross examination of him had been denied by the justice of the peace. Finally the court decided that testimony was admissible if Hickerson was then mentally able to testify intelligently on which point the decision will be heard Monday

THE INDIAN WAR!

Some of the Umatillas Believed to have Joined the War Party—George Coggan Killed and Al Bunker Wounded—Fighting Reported

SATURDAY'S DISPATCHES

UMATILLA, July 13 [illegible] A M

The following letter was received this morning from Pendleton at [illegible] A M

[illegible]: Dear Sir: Yours [illegible] received. Will try and get an escort for the wagons in the morning. We have been having exciting times here to-day. The hostile Indians are in force in the vicinity. George Coggan of Portland and Al Bunker of La Grande were shot this afternoon about six miles from here on the stage road to Cayuse station. Coggan was killed dead and Bunker is supposed to be mortally wounded. Fred Foster was with them and only got away very luckily. Bunker rode with him for about two miles after he was shot and he was compelled to leave him. Foster gave us the news and we started a team with fourteen men as an escort to go for Bunker. They got as far as Chief Winum Snoot's farm when they were attacked and compelled to return after exchanging a number of shots. The Indians were about 150 strong. Umatillas are undoubtedly fighting with them. Major Cornoyer was with the party attacked. They think they killed one Indian as he was seen to fall from his horse

Cayuse house was pillaged and then burned. Our stage station was not burned at dark

Captain Miles' command will reach the agency to night. Should be there now. I sent a courier from here to meet him if possible before he reached the agency to advise him of the facts of to-day

His soldiers are very much worn out and exhausted and should they go into the agency thinking the Indians are all right they may get the worst of it. Our families are at the hall and court house and the town is well guarded. If help could come at once from Walla Walla to us we could settle the Indian business I think. Will keep you advised. I believe they will try to cross the Columbia to-morrow will probably decide that fact

(Signed) J B KEENEY

Captain Miles Fighting near the Agency.

UMATILLA July 13

The following letter has just been received from Pendleton under date of July 13th

To [illegible]: The troops under Capt Miles are now fighting about two miles above the agency with the Indians. They have been engaged for the past two hours. The Indians are on the river near their general camping place. Almost all of the Umatillas are supposed to be in the fight. Al Bunker has just got in. The parties who got him had to run with him two miles to get away from the Indians. He is badly shot up but the doctors think not fatally. Coggan has not been found yet. His body will probably be found to-day. Should the Indians get the best of Capt Miles we will all undoubtedly have to fight

J B KEENEY

A Later Report.

WALLA WALLA July 13—5 P M

A man who left Weston to-day says troops are fighting between the mouth of Lodi Willow and Cayuse Station 12 miles from Weston on the Meacham road. They commenced firing between 8 and 9 o'clock this morning. They were still fighting when he left. He could see smoke and hear musketry very plain. He says the Weston folks sent a scout out for their men but could not get them as they were in the fight. There are about 50 soldiers under arms. They expect Major Sanford at Cayuse Station to night

Troops Ordered Back from Lewiston.

WALLA WALLA July 13 9 30 P M

The six companies that left Walla Walla for Lewiston have been turned back and are now en route for Wallula. A courier who left Pendleton at noon reports Miles fighting two miles above the agency, and had been for two hours. Almost all of the Umatillas are supposed to be in the fight

Call for Volunteers—Duplicity and Perhaps Hostile Intentions of the Umatilla Indians.

UMATILLA, July 13 2 30 P M—The governor has made call for 300 volunteers to report to him, and sent courier last evening to Pendleton to get news of what happened after he left this morning. Courier returned at 3 o'clock A M, having rode 75 miles during the night. The governor's proclamation in substance recites the condition of affairs, says that all friendly Indians will go to the hostiles whenever they find they can be successful against the whites, that all friendly Indians with few exceptions are the midnight allies of the hostiles and aid them in removing stolen stock and plunder, that their promises and pledges of friendship can not be relied on. They have misled settlers and soldiers and have acted as spies and scouts for the hostiles. He further cautions volunteers against doing any act not justified by customs governing modern warfare. The men will all be rused in Eastern Oregon. Gov Perry yesterday dispatched Gov Chadwick that he could now have guns from Vancouver on his allowance. A large number of freight wagons are on the road four miles above Cayuse station. Men and horses gone. Road dangerous

Settlers Pouring into Walla Walla from Every Direction

WALLA WALLA July 13 11 30 P M—Many wagons have arrived in the city during the day and evening containing families who are coming in for safety. They are still arriving from various directions. We will probably hear some interesting news in a few hours

Report from the Wallula—Summary of the Situation

WALLULA July 13 10 P M

This place was thrown into quite an excitement this afternoon upon receipt of a report that reliable information had been received that the hostiles were on Wild Horse and that fighting was going on there between the artillery and Indians and that in all probability the reds would come down Vansyckle river passing within two or three miles of this place and likely calling upon us. Upon learning of the fighting on Wild Horse Gen Wheaton stopped several companies of cavalry under Gen Forsythe who were just leaving for Lewiston and ordered them immediately to Wallula or to the aid of Miles who it was supposed was engaged. A message was just received confirming this supposition and a courier sent from here to Gen Forsythe instructing him to make all possible speed and by the shortest roads to Miles who has doubtless had a long hard fight to-day as 300 Indians are reported to have been in the band that burned Cayuse station. It is undoubtedly this same band that Miles and perhaps Throckmorton are fighting to-day. We have all the women and children aboard the wharf boats well fortified and the steamer *Frank* lying alongside with steam up. Cap Wilkinson with his squad of men will take her up to the mouth of Snake river should they make an effort to get by here and cross at that point. No one here however has any fears for their personal safety as we are so well fortified that danger is scarcely thought of [illegible] [illegible] [illegible] [illegible] sent [illegible] [illegible] to report their appearance at 6 o'clock this evening have not yet returned. The steamer *Spokane* will arrive at this place at [illegible] having on board five companies of soldiers under command of Major Mizner who will probably start immediately for Pendleton if the situation remains as it is to-night. The *Spokane* will be taken charge of by Captain Wilkinson and his small detachment of brave and true men who have done such gallant service on the steamer *[illegible]* as a patrol boat

Dennis of Florida says with reference to the continuation of the Potter inquest and the declaration of the house that the president's title is unassailable. "I don't see any use of running a soap factory without making soap. There is no use of conducting it for its stink alone"

LATEST WAR NEWS.

Great Stampede of Settlers into Walla Walla—Particulars of Saturday's Fight near Cayuse Station—How the Coggan Party was Attacked—Various Statements and Reports.

WALLA WALLA, July 13

Yesterday, Saturday was the most exciting day Walla Walla has ever seen. On Friday afternoon a portion of the cavalry command under Col Bernard, consisting of five companies reached here and these added to the countless number of refugees who have been flocking in here for the past two weeks had the effect of intensifying an excitement that has for some time past been almost at a fever heat. All Friday night the tread of armed men resounded throughout the city and the [illegible] through [illegible] or a bountiful supply of whisky the boys and the boys in blue became bloodthirsty and not finding any Indians on hand commenced after the style of the Siberian wolf and devoured one another. The interposition of the police saved much ammunition and as a consequence the casualties were of trifling character the injuries consisting principally of bloody noses and black eyes. After passing such a night it can be readily imagined that the public mind was in a condition to receive and accept as true the wildest of rumors

About 10 o'clock on Saturday a man breathless and covered with dust arrived in the city from Weston bringing the intelligence that the troops were engaging the Indians at a point near the reservation buildings and the sound of the guns, supposed to be howitzers could be distinctly heard at Weston. This report although vouched for by a reliable gentleman was not generally believed, not at least by the knowing ones who had been reliably informed that the Indians after the engagement of Monday last, had taken across the mountains and were moving toward the Grand Ronde. The presence here of the military under orders to move toward Lewiston with the intention of cutting off the hostiles immediately upon their appearance in that locality and also the hurried movement of Gen Howard to the mouth of Snake river was sufficient proof that this report of a battle near Cayuse was without foundation. Several hours later when the cavalry under the command of Gen Forsythe moved out of town in the direction of Lewiston everybody was convinced that the battle was a myth and the man who started the story was denounced in language more forcible than polite. Still the excitement continued and still the news of the battle continued to reach us but nothing that could be relied on

Gen Forsythe had hardly passed beyond the outskirts of the town when Mr Isaacs a well known citizen and thoroughly reliable gentleman arrived in town bringing the intelligence that a band of Indians had been seen in Van Syckle canyon and that the people thereabouts were in great danger. This news, coupled with the reported appearance of the hostiles in large force at Cayuse station reaching the commanding officer a courier was dispatched to Gen Forsythe with instructions for that officer to retrace his steps and move toward Van Syckle canyon. Col Robbins and his party of scouts were the first to return, and after securing the assistance of Joseph Painter as guide moved rapidly toward the scene of the alleged hostilities rapidly following the cavalry and passed through Main street this time headed for Wallula

All kinds of rumors were now in circulation. The streets were crowded, and the town was given over to discussion of the Indian question. About dark men commenced arriving here direct from Cayuse station and as they all confirmed the report received early in the morning in relation to the fight, Gov Perry in order to be in a position to better comprehend and grapple with the situation sent a number of scouts to the front. A telegram was also received from Gov Chadwick confirmatory of these reports

Following these stories came the news that the road between this city and Weston was lined with fleeing settlers. About 7 o'clock these wagons commenced pouring into the city, and by 12 o'clock it is estimated that fully 700 people mostly women and children passed in through the various avenues leading from the country roads. The scene presented by the appearance of these panic stricken people is beyond description. The stories told by them varied in many particulars and no two agreed upon any one point. Some had seen Indians within a few miles of town and others reported the massacre of their neighbors. But little attention was paid to these stories allowance being made for the excited and feverish state of the minds of those relating them. Such provision as could be made was provided for the shelter of these unfortunate people

About 11 o'clock Wallace George a government courier arrived direct from the battle ground and from him I learn the following: On Friday afternoon about half past 1 Geo Coggan, in company with Al Bunker and a Mr Foster, started from Meacham's for Pendleton. They had not proceeded far when they came across a band of about 200 Indians who were driving a large band of horses. The Indians paid no attention to Coggan and his party and permitted them to pass on unmolested. They had gone but a short distance when a portion of the Indians, about forty, turned to pursue them. Coggan and his party put spurs to their animals and attempted to outrun them. Foster and Bunker, who were mounted on good animals, succeeded but Coggan who was poorly mounted his horse being an old stage animal fell behind and was soon surrounded by the bloodthirsty savages who speedily dispatched him. The Indians followed a short distance, keeping up their fire. During the pursuit Bunker received two wounds in his side and another in his right hip. Foster although in great danger himself assisted Bunker to remount. They moved rapidly on the Indians following but a short distance. It soon became apparent that Bunker could not [illegible] stowed by his companion in a secluded spot. Foster without further delay proceeded to Pendleton, when, upon relating what had befallen his companions Col Cornoyer with a party of twelve men started out to recover Coggan's body and bring in Bunker. Soon after starting they met a large band of hostiles and were compelled to return

In the meantime Colonel Miles with about 300 regulars had reached Pendleton and hearing the reports brought in both by Foster and Cornoyer immediately took up his line of march for the place where the Indians were said to be. After a march of about six miles and within a short distance of Cayuse Station he encountered between 100 and 400 warriors. This was about 8 o'clock in the morning. Getting his men into position Colonel Miles opened fire on the hostiles who returned it, but without effect, neither side sustaining any injury. This was continued without intermission until 12 o'clock when the Indians attempted to charge Miles lines but were driven off the rebels being unable to stand the fire from the howitzers. In this charge the Indians sustained considerable loss [illegible] present [illegible] Miles casualties consist of two men wounded—one in the arm and the other in the leg neither of which are considered dangerous. Shortly after one o'clock the Indians fell back towards the mountains

This is the first time during this campaign that the hostiles have attempted a charge and shows they are driven to desperation. During the whole fight they shot wild and as marksmen would not rank high at any of the Creedmoor contests. The conflict of yesterday can hardly in any sense of the term, be called a battle Miles object in view of the overwhelming numbers against him being to prevent the advance of the hostiles and if possible, hold them in check until reinforced. This he gallantly did and when the fact that his force was afoot and the savages well mounted is taken into consideration, the result of yesterday's fight will be better appreciated

Sometime during Friday the Indians completed the destruction of Cayuse station which on the day previous they had partially destroyed. It is feared that Meacham's has met a similar fate

Returning to Miles fight—Among the interested spectators were a large number of Umatillas who took sides with neither party but appeared to relish the sport. It is said but with what amount of truthfulness I cannot state that a number of young men belonging to this tribe under Winum Snoot have joined the hostiles. Col Cornoyer reports so. I am informed that the young warriors have passed beyond his control

At ten o'clock this morning Gen Forsythe with his command was at Weston having been ordered to the scene of [illegible] that and was moving as rapidly as his horses could travel

The United States forces now in Umatilla county amount to seven hundred men and it is thought will be sufficient if no untoward accident occurs to bring the hostiles to terms in a few days. Gen Forsythe who is in command is an old Indian fighter and one of the most experienced officers in the army. He possesses the confidence of both his officers and men and should the opportunity be afforded him he will make short work of the Piutes

When found the body of Coggan was frightfully mutilated

Notwithstanding reports to the contrary it is almost certain that a portion of the hostiles have succeeded in crossing the Columbia and the danger, so far as the future is concerned is with them. For should they succeed in obtaining reinforcements from the Columbias and other bands the war will be of long duration, and will require an immense army to whip them into a lasting peace. There is much excitement throughout this entire section of country, and the feeling of insecurity is universal

Since writing the above I learn that Gen Wheaton has gone to the front and will direct the movement of troops in person. Several millmen have just come into town and report they were driven out of the mountains by the Indians who appear to be in large numbers. A volunteer company has been organized here and have placed themselves at the disposal of Gov Perry

Four Men Killed in Blue Mountains

UMATILLA, July 14

The following is just received from Union, July 14: J H Kunzie Umatilla—Union scouts reached Crawford's Hill yesterday morning and found Olney, McCoy, Smith, and Jas Myers killed. A Fight with 300 Indians

WALLA WALLA July 14

News from Pendleton is to the effect that Miles had a fight with 300 Indians yesterday, lasting 7 hours. Indians were badly whipped. The entire command including Bendire's cavalry, charged the hostiles driving them in confusion. No officers were hurt, two enlisted men were wounded and five Indians were killed and a large number wounded

No Indians within Fifteen Miles of Wallula.

Baker City Dispatch.

BAKER CITY July 13

Hostiles have made their appearance on Clover creek, a tributary of North Powder river. Captain Vivan's company of Egbert's command, while scouting yesterday in that direction captured seven Indians eight squaws, some children and twenty horses. After a vigorous pursuit thirty or more of the hostiles escaped. Scouts from Meacham's report a large trail through the Blue mountains passing toward Snake river, made early yesterday morning. Egbert's command is ordered to the Payette country to watch for returning hostiles who are evidently moving north towards Idaho and the Salmon river country as fast as possible. Sanford's command is ordered to join Miles near the Daley ranch, and then follow on the trail of the Indians north. The prisoners captured yesterday are now on the way to Fort Boise under Egbert's escort

Indian Murders.

HELENA Mont, July 13—A special from Philipsburg, Montana, July 12 midnight says Indians passing through murdered Wm Joy on Ross's fork of Rock creek. Jack Hayes and Amos Elliott are also supposed murdered at the same time and place. The murderers are believed to be the same Indians who murdered the men on Dearborn river and Elk creek, probably returning Nez Perces

Two runners John Myers and John Lynch were killed last week on Elk creek Montana. Indians are believed to have committed the deed. Elk creek is on the line of Cadott's Pass near where two men were previously reported killed. Considerable apprehension is felt by ranchers and stockmen on the road from here to Fort Benton

LONDON July 13—The Capetown *Standard and Mail* summing up the results of the war now ended with the natives in South Africa, says "Only a few small parties of the enemy remain and it will not be long before they will be disposed of. The loss on the side of the insurgents has been more severe than the natives had experienced in any previous outbreak, and it may be said that their power as a people has been utterly destroyed

Boston Wool Market.

BOSTON July 13—The improvement noticed last week continues the demand being active for nearly all grades of domestic with large transactions amounting to upwards of 2 600 000 pounds for the week and a very firm market. New clip from the west been arriving quite freely. Prices compared with current rates in the interior are comparatively low and it is not surprising that manufacturers have been disposed to purchase more freely than for some time past especially as a lower range of prices can scarcely be looked for at present. All the new wool houses are free sellers at current rates

The Congress Ended

BERLIN July 13—The congress held its last session to-day. Proceedings began at 2 and ended at 4. The treaty was [illegible] by all the plenipotentiaries diplomatically. The secretaries attended previously at 1 P M to affix plenipotentiary seals to each copy. After signature Count Andrassy warmly eulogized Bismarck's presidency. Bismarck thanked the plenipotentiaries for their indulgence. The proceedings terminated with a grand court dinner this evening at Whitehall Palace. Crown Prince Frederick William congratulated all the statesmen upon the success of their labors and said that the blessings of peace crowned their efforts. He declared that Germany's co-operation can be counted on for all that tends to secure and preserve these great benefits. He proposed the health of the plenipotentiaries and their sovereigns

Preparations for Government of Cyprus

LONDON July 14—The government appears busy with details of the military and civil establishments in Cyprus. Papers announce the appointment of a postmaster and other officials. Gen Sir Garnet Woolsley has already in consideration a scheme of a financial company for the introduction of railways. Arrangements are also being made for a submarine cable to Alexandria, which will give direct communication with England. Among other schemes brought to the surface by English occupation of Cyprus is the Euphrates Valley railroad. The Duke of Sutherland and others are in active communication with the government on the subject and it is stated, if within a reasonable time, it appears the Anglo Turkey convention is successful it is possible the country will be asked to give guarantee for the proposed railway

Supplementary Congress Proposed.

LONDON, July 13—At yesterday's sitting of the congress Bismarck moved that a supplementary conference be held next autumn either at Constantinople or Berlin but Lord Salisbury declared his inability to accede to any proposal interfering with immediate submission of the papers to the English parliament, and the motion was thrown out

The Treaty of Peace.

LONDON July 14—The treaty of peace contains fifty eight articles. The *Times* version which is declared at Berlin unauthentic contains important questions relating to the Dardanelles and Armenia. It is probably an early copy obtained for final revision. Its first twelve articles relate to Bulgaria, which is constituted an Autonomous tributary principality under suzerainty of the Sultan with christian government and national militia. These articles further regulate election of prince by notables at Tirnova, arrange provisional government previous to election and lay a basis of government after his election. Articles 13 to 21, inclusive, relate to the new province called Eastern Roumelia, south of the Balkans which is placed under military and political authority of the sultan, with, however, a christian governor and in conditions of autonomous administration. The governor is to be appointed by the Porte with assent of the powers for five years

LONDON July 13—The following is the substance of the articles of the treaty of peace concluded by the Berlin congress

Article 1 Bulgaria is constituted an autonomy tributary principality, under the suzerainty of the sultan with a Christian government and national militia

Article 2 The principality is limited on the south by the Balkans

Article 3 The prince shall be elected by the population and confirmed by the porte and powers. No member of the reigning European dynasties shall be prince. In event of a vacancy a new prince will be elected under the same conditions

MONDAY MORNING JULY 15 1878

ENERGETIC MEASURES REQUIRED

When Gen Howard dislodged the Indians from their position near the head of Birch creek and pursued them along the ridge of the Blue mountains toward the north and east, it was supposed on all sides that the danger in Umatilla county was about over. No doubt was entertained that the Indians were retreating with a view of escaping across Snake river. But much to the general surprise, a large part of them, perhaps their main body, have boldly come to the Umatilla reservation, where on Saturday they gave battle to the troops under Gen Miles. The contest was not a severe one, though the Indians were routed with some apparent loss. But this event, together with the numerous murders perpetrated, renews and intensifies the general alarm. The panic which was subsiding somewhat, now appears to be greater than ever and with good reason. It has now become a supreme duty devolving on both the general and state governments to put forth every exertion that may be necessary to bring this affair to an end. It ought to be possible to destroy this band of marauders within a short time. Some reinforcements of regular troops have been received and within a day or two arms will be obtainable so that the governor may be able to bring into service such force of volunteers as circumstances may seem to require. Any number of men may be had right upon the scene, if arms only are supplied. Every consideration demands the speedy use of the most energetic measures. Citizens are being murdered. Throughout a wide extent of country the inhabitants are fugitives. Their all is lost or abandoned, harvests are ungathered; flocks are killed or dispersed, and great numbers in want even of the necessaries of life are camping in and about the towns, while their homes are being pillaged and destroyed. All business is interrupted, and the section of country subject to these depredations is receiving a blow which it may be feared will for the time arrest its progress and paralyze its prosperity. Under this state of facts there should be no hesitation on the part of the executive in doing all that his powers allow to co operate with the regular military forces for the purpose of bringing this disastrous raid to the speediest possible termination. Heretofore arms could not be had. But as arms for Washington territory are to arrive by the *Oregon* a portion of which it is understood will be placed at the disposal of the governor of our state, it may be presumed that he will use this courtesy to the utmost in arming volunteers for immediate service. A call for three hundred was issued on Saturday and no doubt these will be fully organized and ready for action by the time the arms can be had. It appears to be probable that the intention is to take the company, one hundred strong offering here.

THE UMATILLA INDIANS

It is believed that the Umatilla Indians or a portion of them, are in sympathy with the war party, and are even rendering aid to the hostile band. The persistency with which the invaders hover and linger about the reservation is a strong indication that they are receiving or expect to receive some kind of assistance from that quarter. Whether any of the Umatillas are actively engaged in these hostilities or not, it is highly probable that some of them are co operating with the hostile force by conveying intelligence to them, running off stock and otherwise giving them aid and comfort. To the restless, discontented class who have nothing to lose and delight in mischief, an occasion like this furnishes a highly agreeable opportunity for indulging their natural propensity, and it will be strange if they do not embrace it. But those of the tribe who have property at stake are attached to the reservation and do not want to leave it or lose it, are not likely to join their Bannack and Piute visitors. It is however, quite to be expected that the war party will obtain a good deal of help in various ways, and perhaps some reinforcement to their numbers, from stragglers and malcontents out of the numerous bands in the Columbia river country. If these want to rob and kill they have a chance to do it under cover of this invasion. The time is near at hand, unless the raid soon comes to an end, when all friendly Indians must be carefully secluded at home, and all treated as hostiles who refuse to yield to this necessary requirement. A number of whites have been killed in consequence of their having taken hostile Indians for friendly ones, and presently all Indians not on reservations will be supposed hostile and treated accordingly.

H. W. S.

There is no possible solution of the Indian question except extinction of the Indian *as an Indian*. This may be done in two ways: first, by annihilation of the race, second, by such change of our policy as will make him strictly amenable to law, teach and accustom him to individual responsibility and individual property, break up his tribal relations and dependence, and cause him to learn that he must support himself. Our Indian policy is not only irrational in itself, but very grave errors have been committed in carrying it into effect. We have established numerous tides of emigration [illegible] fully support the Indian [illegible] them, destroys the natural supply of food and prevents the Indian from supporting himself. Game is destroyed or driven from the country, the simple arts of the Indian become insufficient to supply his wants, the supplies furnished by the government are just sufficient to encourage him in idleness, and he is a vagrant of the worst species, given up to laziness, beggary and vice and not only learning no lesson of individual effort and self reliance, but actually prevented from learning it. Such a creature is naturally fit to become a robber and murderer. A policy under which such a creature is produced certainly is not a good policy, and if government cannot improve it the far better thing would be to discontinue its relations with the Indian altogether.

Both parties are beginning to figure on their prospects for the next congress. The Congressional Republican Committee at Washington have received information which leads to the belief that the Republicans will carry some close districts in Virginia, while three congressional districts in New York and possibly four now represented by Democrats, it is hoped may be gained by the Republicans together with one district in New Hampshire, one in Massachusetts, one in Pennsylvania and three in Illinois. The Democrats, on the other hand, without naming districts which they expect to carry now represented by Republicans, claim that they will have from twenty to thirty majority in the next congress.

It is announced that instructions are to be given to run the mints to their full capacity, and that the maximum amount of standard silver dollars authorized to be coined by the silver bill, $4,000,000 a month, will be turned out at the mints for the next four months.

Oregon's appeal for arms received the reply that the state had already drawn more arms than it is entitled to. The San Francisco *Chronicle* thinks a good answer to that would be that the state has also drawn more Indians than it is entitled to.

The Lewiston *Gazette* fully believes that Chief Moses is disposed to peace and in proof of it states that within the last few days he has bought in Colfax and fully paid for several hundred dollars worth of farming machinery.

OBSERVATIONS IN WASCO

SCOTT'S P O, near mouth of Rock Creek,
July 11 1878.

TO THE EDITOR OF THE OREGONIAN

I left this point at 8 A M on the 5th and have since been by way of Rock creek into the Blue mountains at the head of Wall creek 33 miles from Heppner by the Medicine Lodge trail. From thence on the 9th I came to Heppner and thence yesterday via the stage road down Willow and across to Rock creek. In that round of one hundred and forty miles I have seen no Indians, and up to this date I believe there are none that are hostile south of Willow creek and west of the Blue mountains. The people are yet much excited, and as it is generally believed that the effect of the patrol of boats on the Columbia river and Gen Howard's engagements will be to scatter the Indians in small parties in their recoil from the river and Howard's army, the danger to isolated settlers, herders and others is increased for the time. From this excitement arises a danger that bands of Columbia River Indians, John Days or Umatillas may be attacked without sufficient reason and under the idea that it is to them a war of extermination, the war which is now being driven eastward over the Blue Mountains apparently may be renewed. But let it cease to day and these marauders and murderers go unpunished and it will most certainly be soon renewed again in some form or on some pretext. The fact is the land can not be occupied jointly by the two races in peace and the predominant race must from this time forth go to the cost and trouble of making its power seen and felt by the weaker people. To do so the whites must have arms and a portion of their number selected whose duty it should be to be ready, always ready. The business interests of the people of Oregon will henceforth as certainly require a limited number of mounted men to act as patrols, scouts or soldiers, or, all in one, as that the safety of life and property in our cities justifies if not demands the support of police and fire companies. The present panic and consequent loss of time and property would never have been so great as has already been were it not for the fact that the settlers of this country had ceased to consider it worth the cost and trouble of being prepared for such dangers as have caused this panic. The effect of it will be long felt by many both in purse and person. "With many here," as Colonel Nesmith remarked from the counter of the Chemeketa Hotel the evening I left, "to leave their homes means the loss of this year's labor at least and to some much more." At Heppner yesterday I learned from sheep-owners that their flocks were running in the Blue mountains without herders by thousands. On my way down Willow creek I passed farms where the men as well as the women and children, were gone. In many of these cases the stock will have destroyed the crop before the return of the owner, and when we consider the extent of the panic and the devastation the bravest stand of a few men could not have prevented we can only approximate the injury. After spending one night here at Leonard's bridge most of the settlers of Rock creek took their families home again and are now busy with their harvest but restless and uneasy still. There is some talk yet of forming a small company of mounted men, but there is a lack of guns, though there were twenty state guns furnished here. J M

A mass meeting at Goldendale has taken measures for defence of the place. Scouts are kept out to report approaching danger.

At the city election in Port Townsend last Monday only 119 ballots were cast. Mr Lisenbeis having no opposing candidate, was re elected mayor.

The steamer *Olympia* has returned from San Francisco and will ply on the waters of the Sound. Probably she will carry the British Columbia mails.

The Klickitat *Sun* says that after a session of eighteen days the Methodist campmeeting in that county has closed. There were eighty or more accessions to the church.

There is a reason for everything. The reason why
Tarrant's Seltzer Aperient
Has such a salutary effect upon disorders attended with inflammatory or feverish symptoms, is that it induces a gentle almost imperceptible perspiration which reduces the heat of the blood that its laxative influence further tends to cool.

To the Cigar and Tobacco Trade in Oregon and Washington Territory:
In order to sell our Cigars and Tobacco as cheap as possible, we have come to the conclusion henceforth not to send an agent to Oregon and Washington Territory to solicit orders or to make collections. We are hereby enabled to save large expenses, and as a consequence, will sell our Cigars and Tobacco, of corresponding qualities, cheaper than any other house in this city.
Thanking you for the kind patronage with which you have favored us heretofore, we shall be pleased to receive henceforth your valued orders and remittances direct. Respectfully,
G. CORN & CO,

MONDAY MORNING JULY 15 1878

CITY.

HORSES RECOVERED.—Mention has been made several times of the loss of a valuable span of horses by Mr G W Shaver who resides in East Portland The animals were stolen from Mr Shaver's stable some time during the night of July 4th At 11 o'clock that night the horses were in the stable but the next morning were gone Search was made for the missing animals men were sent in different directions through the country and a reward offered for the recovery of the horses. No traces were discovered of the stolen property until last Friday Some men engaged in cutting wood near Damascus in Clackamas county, came across a half breed and his squaw camped in the heavy timber. The men observed that the half breed had two large, splendid, American horses a circumstance which attracted their attention and caused some comment That evening, when they returned to Damascus they told a Mr. Wilson about the half breed and the horses Mr Wilson knew Mr Shaver and having read his advertisement in THE OREGONIAN, his suspicions were at once aroused. He found a copy of the paper and reading a description of the missing animals asked the men if the horses which they had seen tallied with it. They said it did, and the next morning Mr. Wilson came to East Portland and informed Mr Shaver who immediately started after the horses Meantime the half-breed and his squaw changed quarters after meeting the men in the woods They moved over near Marshfield—a short distance above Milwaukie—and camped. Late Saturday afternoon there whereabouts was ascertained and the horses captured However, the man adroitly effected his escape, leaving his klootchman to her fate. The squaw was brought down to East Portland and is now held in custody It is thought that the escaped horse thief will be captured and made to suffer the consequence of violated law Both the man and woman were raised in Yamhill county near the Grande Ronde agency. Evidently they were endeavoring to get back to their old stamping ground when overhauled Mr Shaver is only too glad to recover his team which he values at $325

STORE BURGLARIZED.—During Friday night the hardware store of Messrs Dayton & Hall at the corner of First and Taylor streets, was entered by burglars. An entrance was effected through the rear door A hole was first bored through the panel of the door, and with the aid of a hatchet was enlarged to a sufficient size to enable an arm to be inserted by which means the bolt on the inside was reached and the job of opening the door speedily and easily accomplished After getting in, the burglars opened the drawers and abstracted all the money they contained—about $9 Mr [illegible] entered the store at the front door recently while the burglars were engaged at their work. They slipped out at the back door and made good their escape before Mr [illegible] discovered that the premises had been burglarized. The money was the only thing stolen; but had not the burglars been frightened away they would no doubt have appropriated a number of valuable articles This same store was burglarized only a few months ago.

BIBLE READINGS.—At the rooms of the Y M C A. Rev. H. M. Brown gave another of his interesting expository discourses, which were listened to with deep interest At the Taylor street M. E church last evening a union meeting of the churches was held for the purpose of listening to Mr Brown He took Mark x, 46 52 as the foundation of his discourse; topic, "Opening of Blind Eyes." The church was quite well filled, and the audience gave close attention to the close. [illegible] was produced as the speaker [illegible] compared a certain preacher—who forsook his ministerial vocation and took up stock brokerage as a business—to [illegible] of old, and remarked that he was occupied, like that patriarch, in "watering [illegible]." Mr. Brown will conduct the services to-day at noon in the rooms of the Y M C A. All are invited to bring their Bibles He expects to leave for the Puget Sound country and Victoria in a few days

STABBING AFFRAY.—While the New Era excursion train was returning from the park Sunday afternoon and had almost reached Oregon City, a young man named George [illegible] became somewhat boisterous, and on being reproved by Mr Henry Myers, of this city, who belonged to the society under whose auspices the affair was given and whose duty it was to maintain order, attacked him with a knife. Drink and anger made him desperate and he plunged the weapon, which fortunately was small, several times into Myers' back, cutting him severely La[illegible] was arrested when the train arrived at Oregon City, and was locked in the county jail. Myers was brought down on the train His wounds are painful but are not mortal

ALMOST A FATAL BLOW.—A celestial employed on the farm of Mr Thomas Summers, located a few miles south of this city, met with a very severe accident a few days ago In company with a gang of Chinamen John was chopping wood A large tree had just been felled and the celestial was engaged in cutting off the branches He raised the axe which, in descending, caught on a projecting limb. This so turned the blade that it came in contact with the side of the celestial's [illegible], inflicting a terrible gash. Fortunately no arteries were severed The injured Chinaman was taken to a shanty near by and his wound dressed, and at last accounts he was on his way to recover

ONLY ONE NIGHT —This morning Haverly's Minstrels will start down the river for Astoria, at which place a performance will be given this evening. It was the original purpose of the management to give two performances at Astoria—Monday and Tuesday evenings—but as the steamer *Elder* will probably leave there for San Francisco to-morrow afternoon the company will not appear but once The people of Astoria may be assured that a real treat is in store for them, for the performances given by this company are first class—very entertaining and at the same time chaste and refined Remember, only one night

PORTLAND SEAMEN'S FRIEND SOCIETY —This society held another successful service on board the *Grace Roberts* yesterday at 2 P M The entire crew, officers and men belonging to this vessel and from other vessels were present and paid marked attention to the discourse by Chaplain Stubbs At the close Mrs Stubbs spoke briefly, exhorting the hearers to turn to God. Two persons raised their hands in token of their desire to do so, when Mrs Stubbs knelt on the vessel's deck and offered prayer to God. Quite a number of ladies were present, and much good reading was distributed to all who would accept.

FOOT RACING AT EAST PORTLAND —The foot races at East Portland park yesterday afternoon were largely attended and much interest was manifested, considerable sums changing hands on the result The first race was for $100 between Breckendorff and Wesley distance 75 yards and was won by the former in 8 seconds, Wesley having the misfortune to fall. After this a race was made between [illegible] Hamilton and a man named Parsons for the same distance, in which Hamilton was beaten, Parsons winning the race by five feet in 8 seconds

BADLY CRUSHED —Friday a man named English, we learn, was severely injured while engaged in logging a short distance below St Johns. English and another man had rolled a large saw log as far as a little rise in the river bank, where it proved too heavy for them and rolled back catching English's feet and throwing him to the ground the heavy log rolling across his [illegible] which were badly crushed Though the wounds are not necessarily dangerous they are very painful.

BODY RECOVERED —A note from the Cascades, dated July 12, says Yesterday the body of a man was found floating in the Columbia river at the upper Cascades and this morning an inquest was held The verdict rendered was as follows We believe his name to be James H Watson that he was a soldier on his way up the Columbia river with his company and fell from the steps or platform of the car into the river and was drowned on the night of July 5th, 1878

STRUCK A SNAG —A few days ago as the little steamer *Novelty* was on her way from Waterford to Eagle Cliff she struck a snag which broke a hole in her bow that came very near sinking her but for the prompt action of Capt F W Conyers jr she would doubtless have sunk She was with difficulty taken to the dry dock at the landing of J W Conyers sr and is at present beached for repairs

ELECTRIC PEN STOLEN —Early on Saturday morning some thief entered the room of Col J R Farrish in Ankeny's building severed his electric pen from its battery and carried it away It was made of highly burnished steel and must have been mistaken by the thief for silver The pen was worth about $[illegible]

UNCALLED FOR —The following messages remain uncalled for at the Western Union Telegraph office Dr M Heslop Morgan Davis Miss M A Kennedy Mrs M J Calkinder and Mrs Z Barnes [illegible] Portland

FINED —Rev Thos J Sails writing from Lafayette July 12th says W R Stull was fined for violating the Sunday law by selling candies etc at the Webfoot camp meeting in Yamhill county

U S CIRCUIT COURT —Judge Deady will announce the decision this morning in the court in the Oregon and Washington Trust Investment Co vs Shaw et al

FASHION NOTES

The latest novelty is a bracelet that fits any arm and when passed over the hand instantly adjusts itself to the wrists

The novelty in bonnet shapes seen at the openings of the week is a Marie Stuart brim flared at the sides and with very long ears

A panache of from three to six short slender ostrich tips bunched together is used on bonnets that are to be worn in mid summer

An ostrich tip or a wing and an ornament of metal, jet or beads with a scarf of vailing material is the only trimming that a round hat needs

French lace is very much used this season and some of it imitates the thread lace so closely that it requires a connoisseur to distinguish it

Of the small elegant chips there is little more than a large broad crown The curtain is also broader but the brim deserves but the merest mention

The prevailing colors in dress bonnets are white black and yellow, the latter in every shade and tone from the creamiest white to the darkest orange

For young ladies very pretty, simple evening dresses are made of white barege trimmed with fillings, narrow white ribbons and wreaths of flowers

The inside of the new bonnets is merely faced with velvet or satin and has a classic fillet of velvet or of gilt, banding the hair close to the forehead

Nothing can be quainter and prettier than a wreath around the crown of reddish or black berries with hanging grasses of green rubber tubes, each tipped with a pearl

The linen dress for house wear is made of the princess shape and embroidered all down the front and round the turned down collar reverse sleeves, cuffs and pockets

There is a revived furor for the English walking hat The sides are not turned up so high nor so close to the brim as they used to be, and the front has a rounder effect

Swiss curtains are trimmed with lace insertions across the top and bottom of the curtain, instead of running lengthwise These are very handsome, and cost less money

All kinds of trimmings of the material are fashionable this season—side pleatings box pleatings, knife blade pleatings, shirrings puffs ruffles, flounces shell and leaf trimmings and pipings

PICNICS.

The picnic given yesterday at New Era park by the Portland Turn Verein was largely attended and proved very enjoyable to participants A train left the city at 9 30 A M for the park, having on board a large number of excursionists The train returned from the grounds and made a second trip, leaving here at 1 30 P M Several hundred persons availed themselves of the opportunity afforded, and visited the park At the grounds the time was divided between dancing promenading and lunching Music was furnished by the Northwestern band, and Prof Parrish called the figures The affair was well managed and highly successful financially and otherwise Late in the afternoon the train returned bringing the excursionists to the city

THE PORTLAND VOLUNTEERS

The following telegraphic correspondence between Gov Chadwick and Gen Effinger took place on Saturday

UMATILLA, July 13 9 A M

To [illegible] I have made a call for volunteers Take in [illegible] the men under Capt Sears equipped by citizens of Portland so that he has men not so much for a matter [illegible] our age, activity and endurance [illegible] boys I will get the balance here The [illegible] you will get in [illegible] from the [illegible] Tukka was killed yesterday Hostiles are all over the reservation If they succeed they will go to Moses [illegible] all over the [illegible] yesterday Homely Cayuse chief was along We were retreating from Gen Howard and several spent balls fell not ten feet from us The Snakes were all over the reservation when we passed through it At the time I thought nothing of it because I did not know the Indian [illegible] Homely the Umatilla chief [illegible] left me like a streak of lightning I want [illegible] the condition of things in person here [illegible] CHADWICK

THE ANSWER

Gen Effinger in response to the above sent the following dispatches

PORTLAND July 1[illegible]

To Gov Chadwick Umatilla Telegram [illegible] received I am [illegible] I will send the prompt procurement of the men and their transportation I will arrange for them as [illegible] as I can with Gen Sprague I suppose of course you want me to come with them Answer at [illegible] I will telegraph by [illegible] as soon as I [illegible] Sprague W H EFFINGER

PORTLAND July 1[illegible]

To Gov Chadwick Umatilla Fearing you did not fully understand the basis on which the 100 men were to come I consulted with a meeting last with members of the executive committee and have the subjoined in response

PORTLAND July 13

To W H Effinger In reply to your note I have the honor to inform you that the committee has disbanded or adjourned We [illegible] consider it not see proper to act on the old basis I am of the opinion that we cannot mount the men All we can do is to send the men with blankets camp equipage etc the state to supply arms and sustenance and furnish horses Respectfully

L I McARTHUR Chairman Com

MILITIA IN READINESS

The four militia captains—Cook Malone Hart and Mountain (with his pieces of artillery)—say they can have 100 men ready to start at once Gen Sprague says if I inform him by this P M he can put a boat up her river in the morning If you want men from here authorize me officially by telegram at once to call them out This is the better plan Sears just said if citizens will furnish blankets camp equipage and transportation to Umatilla his men will come to serve either as infantry or mounted men W H EFFINGER

MORE TELEGRAPHIC CORRESPONDENCE

In reply to the preceding telegrams Gen Effinger received the following from Gov Chadwick

UMATILLA July 13 [illegible] P M

To W H Effinger Do not send the men if the committee has disbanded I can get all the men here I want You had better remain in Portland until you hear from me Do not send the men The offer was to equip and transport them by your citizens This will not be done Hence I have called for them here S F CHADWICK

Being at a loss to comprehend fully Gov Chadwick's meaning Gen Effinger again telegraphed

PORTLAND July 1[illegible]

To Gov Chadwick Umatilla The distinct offer in the second dispatch to you was for the citizens to send forward the men with blankets camp equipage etc So is and his men are anxious to come thus I have seen the men and they are all good men W H EFFINGER

Capt Sears received the following early in the day

UMATILLA, July 13 8 [illegible] A M

To Capt Sears Portland Come at once as you propose I have the guns at Vancouver now Will get them S F CHADWICK

Gov Chadwick's telegram asking for aid spread very rapidly and in a short time hundreds of our citizens had assembled at the court house A large number of persons enrolled their names and signified their readiness to start at once for the scene of hostilities The volunteers paraded through the streets and were drawn up for inspection on First street in front of the National bank by Gen Effinger where a telegram was received that the volunteers were not wanted The men expressed themselves as greatly disappointed as they were anxious to go to the front at once

ARMS COMING

Capt Sears last Wednesday wrote a letter to Capt Sladen at Headquarters Department of Columbia at Vancouver, asking him whether or not there were arms in the ordnance department subject to the order of Gov Ferry and stated that one hundred men were ready and willing to go to the front provided arms were supplied He received Saturday evening a letter from headquarters of which the following is an extract

VANCOUVER ARSENAL W T July 12 1878

I expect arms on the next steamer which can be issued to the governor of Washington territory on his requisition JOHN A KRESS

Capt Ord Dept Bvt Maj U S A

EXPLANATORY STATEMENT

To many there seemed to be some contradiction in the governor's dispatches but we think the following statement will explain matters and make his apparently unintelligible dispatches understood

The governor had made a requisition upon Gov Ferry for 400 stand of arms and Gov Ferry had honored the requisition and supposing the arms to be ready to issue he made a call for 300 volunteers 200 to be recruited there and the 100 recruited by Capt Sears at Portland and ordered Gen Effinger to forward the Portland 100 at once expecting them to be supplied with these arms as they arrived at Vancouver Upon issuing the order to Captain Sladen he found to his astonishment that the arms were not there but were expected on the next steamer In consequence he had to recall his order as he did by his last dispatch to Gen Effinger to not send the men until further orders The following dispatch will more fully explain matters

UMATILLA July 13

To Gen Effinger I supposed my requisition for arms could be filled but cannot until arms arrive I have no arms for volunteers here By the time I get them may not need only volunteers here If I do will let you know S F CHADWICK

MEETING OF MILITIA

Pursuant to call, the members of the Portland Volunteer Rangers assembled yesterday afternoon and adjourned subject to the call of the captain and awaiting the arrival of arms

The publisher of Andrews Bazar believed there was a large demand for a fashion journal at once cheap and complete The surpassing success of the Bazar sustained his belief The character of its contents is high as the cost of its subscription is low Send ten cents for specimen copy to W R Andrews, Cincinnati

Liver is King

The Liver is the imperial organ of the whole human system as it controls the life health and happiness of man When it is disturbed in its proper action all kinds of ailments are the natural results The digestion of food the movements of the heart and blood the action of the brain and nervous system are all immediately connected with the working of the Liver It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach Sample bottles to try 10 cents Positively sold in all towns on the Western Continent Three doses will prove that it is just what you want

HUMAN BUILDERS

All are architects of fate
 Working in these walls of time
Some with massive deeds and great
 Some with ornaments of rhyme

Nothing useless is and low
 Each thing in its place is best
And what seems but idle show
 Strengthens and supports the rest

For the structure that we raise
 Time is with materials filled
Our to days and yesterdays
 Are the blocks with which we build

BEAUTY:
OR, THE
Secret of a Fair Face.

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred is subjected to the whims of an American climate ... basis and starting point of real beauty —a pure and clear complexion ... thus denied, art must be called upon to furnish it. It can be done, it is done daily. Prof W. E. Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered the surprising article known in fashionable circles as the true secret of beauty and called

MAGNOLIA BALM

The Magnolia Balm is a sure cure for creating a pure and blooming complexion. It conceals all natural blemishes in the most surprising and effective manner. It removes all roughness, eruptions, redness, blotches, freckles, and tan with magical power. It drives away all evidence of fatigue and excitement. It makes the plainest face beautiful. It gives the complexion a dazzling purity and makes the neck, face and arms ... rotund and plump ... look not more than 20 ... rustic maiden into a cultivated city belle.

The Magnolia Balm is entirely free from ... conceals every drawback to beauty, and, while it is as harmless as water, it is so lifelike in its effect that the closest observer cannot detect its use. Ladies who want to make themselves attractive can make an absolute certainty of it by using Hagan's Magnolia Balm, and we know of no other way. It is the cheapest preparation in the world all things considered and may be had at any drug store.

DR. PAUL M. BRENAN.

His Wonderful Success
IN THE TREATMENT OF ALL
Chronic and Difficult Diseases.
He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease in plain and comprehensive language But where he has found them crushed and broken down by disease mentally and physically he has restored them to health and happiness for it is well understood that without health there can be no happiness

DR. BRENAN has made a specialty in the treatment of the following diseases Catarrh Bronchitis and all diseases of the throat and chest by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs including Spermatorrhea Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States Diseases of the stomach bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual This accounts in part for his great professional success

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines or instruments to any part of the country with full instructions and advice Each letter requiring advice or list of questions must contain two postage stamps

Everything strictly confidential and honorable

THE DOCTOR has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION. Persons coming to Portland requiring medical treatment of the proper kind who desire to consult with me will please beware of persons who may try to coax them away to other so called Doctors **through pretended friendship for the patients** Look out for them they are knaves prompted by selfish motives and what they can make Be sure and ask for DR PAUL M BRENAN the *Medical Lecturer* and read his sign on his door

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with baneful certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, cough, consumption, night sweats, monomania and frequent insanity.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By enclosing Ten Dollars coin, in registered letter through the Post office or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union. Address DR. J. F. GIBBON, Box 1,957, San Francisco.

HUMAN BUILDERS

All are architects of fate
Working in these walls of time
Some with massive deeds and great
Some with ornaments of rhyme

Nothing useless is and low
Each thing in its place is best
And what seems but idle show
Strengthens and supports the rest

For the structure that we raise
Time is with materials filled
Our to days and yesterdays
Are the blocks with which we build

BEAUTY:

OR THE

Secret of a Fair Face.

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred is [illegible] to the whims of an American climate [illegible] that basis and starting point for all beauty—a pure and clear complexion. What [illegible] thus denied, art must be called upon to furnish. It can be done, it is done daily Prof W F Hagan placed beauty within the reach of every daughter of Eve when he discovered the surprising article known in fashionable circles as the true secret of beauty and called it

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion. It conceals all natural blemishes in the most surprising and effective manner It removes all tan, pimples, redness, blotches freckles and [illegible] with magical power It drives away all evidences of fatigue and excitement. It makes the plainest face beautiful. It gives the complexion a dazzling purity and makes the neck [illegible] an appearance of [illegible] rotund and plump. [illegible] a matron of forty look not more than twenty [illegible] and changes the rustic maiden into a cultivated city belle.

The Magnolia Balm removes all blemishes and conceals every drawback to beauty, and, while it is as harmless as water, it is so life-like in its effect that the closest observer cannot detect its use. Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM and we know of no other way. It is the cheapest preparation in the world all things considered and may be had at any drug sto[illegible]

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease in plain and comprehensive language But where he has found them crushed and broken down by disease mentally and physically he has restored them to health and happiness for it is well understood that without health there can be no happiness

DR BRENAN

has made a specialty in the treatment of the following diseases Catarrh Bronchitis and all diseases of the throat and chest by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs including Spermatorrhea Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States Diseases of the stomach bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual This accounts in part for his great professional success

All surgical operations can be performed by his skillful hand and the patient need not fear the result.

DR BRENAN

will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines or instruments to any part of the country with full instructions and advice Each letter requiring advice or list of questions must contain two postage stamps

Everything strictly confidential and honorable

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION.

Persons coming to Portland requiring medical treatment of the proper kind who desire to consult with me will please beware of persons who may try to coax them away to other so called Doctors through pretended friendship for the patients Look out for them they are knaves prompted by selfish motives and what they can make Be sure and ask for DR PAUL M BRENAN the *Medical Lecturer* and read his sign on his door
